

New Robot Development

ASM E2000 Wafer Transfer Arm

We are proud to announce that RESER now offers a new addition to our existing line of wafer handling equipment services: the ASM Epsilon 2000 wafer transfer arm. The addition of the transfer arm will allow us to better serve our customers and give more opportunities to utilize RESER's quality services and products.

RESER offers the exchange service for the ASM E2000 wafer transfer arm.

With this exchange service we offer you a completely refurbished and upgraded transfer arm, which we always strive to have a ready to ship transfer arm on stock. When you are in the need of just a repair or refurbishment, this is offered by RESER as well.

ASM PN's:

4500371593 (older PN)
02-332830D01 (150 mm)
02-325961D01 (200 mm)

You can expect the same quality standards that you have grown accustomed to from RESER. The ASM E2000 wafer transfer arm is a great addition to the already comprehensive line of robots and robot related refurbishments RESER currently offers.

Interested in more information about this or any of our other products? Please contact your local sales representative or email us at sales@reser.nl
