Genmark | Robot refurbishment

What we do?

RESER is the most experienced company when it comes to the refurbishment of Genmark robots. All Genmark robots, controllers and pre-aligner models are supported.

The benefits RESER offers are:

- High-quality refurbishments
- Experienced engineers
- OEM parts and materials
- Readily available parts in stock
- Different service levels

Do you know:

- That we have upgrade options available that will improve reliability and lifetime?
- That we offer quick exchange services in case of a tooldown?
- That we are ISO 9001-2008 and 14001 certified?
